Colorado Pharmacists Society (CPS) – Paul Limberis, RPh

The CPS Legislative Committee reported a very successful legislative session. This includes the passage of the Pharmacy Sunset bill, HB 1311, with the inclusion of all the changes recommended by the CPS legislative committee members and Colorado Pharmacy Coalition members.

A one hour continuing education (CE) program “Pharmacy Safety and Security” was offered on April 25, 2012 in Grand Junction, Colorado, and a similar program is planned in Colorado Springs, Colorado later in the summer.

CPS once again partnered with the 9 Health Fair on April 21-29, 2012, and helped the Fair organizers get pharmacist volunteers for over 50 designated sites throughout Colorado.

The CPS Annual Summer Meeting and Fall Meeting were combined into one at the 2012 CPS Annual Meeting and Exhibition held on May 3-5, 2012 at the Cheyenne Mountain Resort in Colorado Springs. Twelve hours of CE were offered on a variety of topics, including drug therapy management, a pharmacy sunset update, compounding, and a variety of disease management/clinical topics. The business session of the annual meeting included the announcement of the winners of the CPS Board of Directors' election. These include: Michael Woodley, President-Elect; Tara Vlasimsky, representing health-system pharmacy management; Kristi Yamasaki, health-system pharmacy non-management; Mary Newell, chain pharmacy non-management; and Rebecca Moote, at large. At the annual meeting awards and installation banquet, Dr. Jodie Malhotra was installed as the 2012-2013 CPS President. Dr. Laura Borgelt was recognized for her service as the 2011-2012 CPS President, and the incoming President, Dr. Malhotra, was awarded the McKesson Leadership Award. Rob Valuck was the recipient of the Cardinal Health Generation Rx Champions Award, which recognizes a pharmacist who has demonstrated excellence in community-based prescription drug abuse prevention. Paul Limberis was recognized as the recipient of the 2011 Bowl of Hygeia Award, and Jeannine Dickerhofe was the recipient of the 2012 Bowl of Hygeia Award.

Governor's Expert Emergency Epidemic Response Committee (GEEERC) – Paul Limberis, RPh

The GEEERC met on May 10, 2012 at the Colorado Department of Public Health & Environment (CDPHE). The minutes from the meeting of November 10, 2011 were approved as submitted. Jennifer Trainer, Strategic National Stockpile (SNS) Coordinator, provided an update and report on the SNS. The Annual SNS Assessment State Technical Assistance Review was conducted on February 29, 2012. This annual review is conducted by the Centers for Disease Control (CDC) to measure the state's preparedness and effort in SNS planning and operation and it serves as the indicator to determine whether or not funding will be sustained or restricted. Colorado received a score of 94%. Projects that will be scheduled for review before the next assessment will include: state plan maintenance and local plan reviews; Drug Enforcement Administration licensing, pending Board of Pharmacy; a repackaging plan; and a state level critical infrastructure prophylaxis plan.

The committee then reviewed and discussed the role of the GEEERC in the SNS request process. The committee agreed that operations would continue to be best served with the GEEERC continuing to provide advisory roles as needed in an emergency, and that formal requests for the SNS from the CDC should continue to come from one of the four following authorized individuals: the Governor, the Executive Director of CDPHE, the Director of the Office of Emergency Planning, or the State SNS Manager.

Anthrax planning was discussed, as there is now anthrax vaccine which requires a three-step vaccination process. This vaccination, along with the 10-day and 50-day supplies of oral medication, will make the process for the points of distribution complicated and cumbersome. This topic will be further discussed at future meetings.

Lyle Moore, Director of the Office of Emergency Preparedness and Response, reported that the CDPHE and the State of Colorado just received the Project Public Health Ready recognition, and Colorado is one of a very few states to have attained this recognition.

Mr. Moore also reported that the GEEERC will need to test the Homeland Security Information Network system. The next meeting of the GEEERC will utilize this technology to help members get familiar with the system.

Intern & School Relations – Jeannine Dickerhofe, RPh

Dr. Marianne McCollum, Interim Dean of the Regis University School of Pharmacy, provided the Board an update regarding the school's site visit by the Accreditation Council for Pharmacy Education (ACPE) surveyors. Dr. McCollum reported that the school will continue to maintain its candidate status in the hopes that full accreditation status will be obtained next year when the school graduates its first class. Rod Carter will be the new dean of the school, effective July 1, 2012.

Dr. Catherine Jarvis, Assistant Dean of the University of Colorado Denver School of Pharmacy, reported that the school has interviewed 425 candidates for its next incoming class of 160 students. Dr. Jarvis further reported that school will graduate 150 students from its traditional program and 43 students from its nontraditional program.
